DATE DISTR 23 July 1948

NO. OF PAGES 2

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO REPORT NO. [REDACTED] 25X1A

1. Lamakhure Sume airfield is 400 meters southeast of Lamakhure Sume (116-47, 45-35). The Lamakhure Sume Temple can be seen from the air at a distance of fifty kilometers. This temple is 600 meters north-south by 1,000 meters east-west and looks like a city from the air.
2. The airfield measures approximately 4,000 meters east-west by 2,000 meters north-south on a natural plain. The soil is hard, mixed with pebbles and the entire surface is covered with a dense growth of grass about five inches high. The airfield is not affected by rain and is the best in the Silingol League from the standpoint of surface and size.
3. There are no facilities at the airfield.
4. Because of the plains south of the road, which run east-west between the airfield and Lamakhure Sume, small planes can land anywhere in this area.
